MISCELLANEOUS					
---	K61913	1	Axle Bushing Removal and Installation Tool Kit (Superior, In-Car-Fix)	2009-On	
<p>Addresses: Fluid leakage on the driver's side due to premature bushing wear resulting in axle seal leakage. The original bushing fails due to inadequate surface area and lack of lubrication. This kit includes a 3-piece tool kit that is designed for quick "in-car" removal of the worn bushing and indexed installation of the new SuperTuff Superior bushing. The SuperTuff bushing is 23% wider than the original, teflon coated and engineered with a lube window for better lubrication. The kit includes (5) bushings and Seals.</p>					
---	61009ST	1	Axle Bushing (Left/Case Side)	Superior - SuperTuff	2009-On
